Mr. Dirk Dose

Dear Client,

We are happy to offer you the following property:

Condominium(s)

Address: upon request

Prop.no.: 4020/1090

Near: Jesuit Church

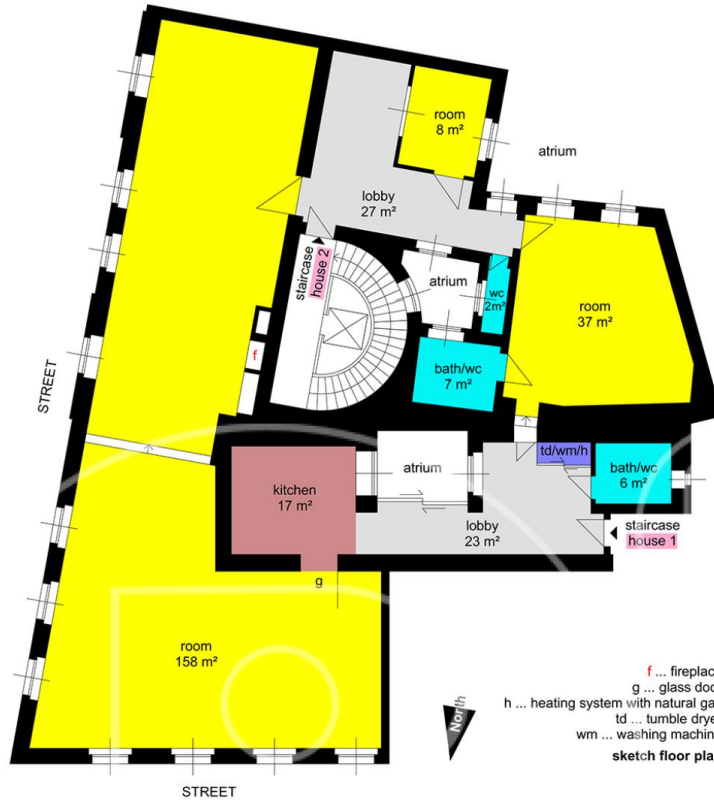

BONREAL

"Two in One" - Splendid period building at an excellent location in Vienna's inner city!

The property offered for sale is an exceptional **285 m² period apartment with a purchase option for 2 parking spaces** at a much-coveted address in **Vienna's first district**.

It consists of two adjacent, separately subdivided condominiums **merged in 2004** situated in **two neighbouring buildings** whose façades are under **heritage protection** and which date back to **1852 and 1858**.

There are still **two separate entrances from two different staircases**. The respective lofts in the two buildings have already been repurposed for residential use.

The two condominiums are situated on the **5th floor** (with elevator), and a barrier-free access is possible.

The buildings are in a very **central, yet quiet residential location with historical surroundings**, consisting of several magnificent turn-of-the-century Zinshäuser (apartment buildings) and sacral buildings. There are several upmarket shops, supermarkets, and restaurants, medical practices, as well as arts and cultural institutions in the immediate vicinity.

The surrounding **public transport connections** are nothing short of excellent. The **underground stations of the U1, U3, and U4 lines** and various tramway and bus stops are just a few steps away from the building. Moreover, both the **urban railway line** and the **City Airport Train (CAT) to the Vienna Airport** are within a short walking distance.

In short, an exquisite residential location in the heart of Vienna.

The two condominiums **were merged in the year 2004**. The previous floor plans were completely altered and adapted to the new owner's requirements, and the premises were fully refurbished.

Legally, the two condominiums are not merged, since they continue to be independently subdivided in their respective buildings, thus granting maximum flexibility to their new owner regarding their use. The condominiums can be structurally divided again any time and used or sold separately without the need for a corresponding legal adjustment of their subdivision.

The current room layout is shown in the attached **floor plan**.

The extraordinary features of this property include a **158 m² living room** awash with light, a **fireplace**, and a **room height** ranging from **2.97 m** to **3.13 m**.

In this living area, each casement window features white-fabric "**shutters**" running on rails, which provide both privacy and protection from the sun. These "shutters" also constitute a decorative element that can be given individual designs.

The **kitchen** and a room in the entrance area have **vaulted ceilings** (no overhead cooling there, see below for more details). The kitchen is separated from the "living room", though it can be easily integrated into this space. It is also possible to carry out various different adjustments to the current floor plan and create more separate rooms.

The property is in an **excellently preserved condition**.

The refurbishment carried out in 2004 exclusively applied top quality criteria, using the most exquisite materials and technologies available. All piping and wiring in both units were replaced (electricity, gas, water) as part of the above refurbishment. Wherever floor tiles were laid, both **floor** and **radiator heating** are available. Radiators were fitted to all areas in which oak parquet floor was installed.

Heating and hot water are provided by a **gas-fired boiler**.

Overhead cooling was installed in 2004, and the system can also be **used for heating in the winter**. The particular advantage of this cooling system is that it does not generate any draught.

The suspended ceiling installed for the overhead cooling was also used for **built-in loudspeakers**, which can create a "concert hall atmosphere" almost in the entire flat.

The **current monthly operating costs** charged by the two building management companies amount to a **total of 990,66 euros**.

The above amount already includes the **value-added tax** and the **repair reserve**.

Two spacious compartments are allocated to the property in the vaulted basement, with a combined floor space of approx. **52 m²**. Since both of them are in a well-preserved condition, they offer various possibilities for use.

During World War II, a metal door and an air exchanger (preserved to this day) were installed in one of the vaulted basements that served as an air-raid shelter.

Moreover, it is possible to purchase **two separately subdivided parking spaces** in one of the two buildings at **75,000 euros each**. The **monthly operating costs for the two parking spaces combined** currently amount to **82.46 euros** (including the proportionate **value-added tax** and **repair reserve**).

These are **two stack car parking spaces directly next to each other**, which provide enough space even for longer vehicles such as a Bentley, or slightly higher cars like most of today's SUV models.

Technical data for each parking space:

Weight: max. 2,600 kg

Height: max. 1.80 m

Length: max. 5.00 m

Width: max. 1.90 m

This residential gem is being sold without the movable inventory, and is immediately available.

All disputes arising in connection with a transaction shall exclusively be referred to the court having subject-matter jurisdiction for the district in which the property is located, otherwise to the District Court of Vienna Inner City.

1. GENERAL

- In principle, BONREAL operates as a dual broker and is entitled to agree on brokerage fees with both parties in a transaction.
- Our offers are subject to confirmation and are non-binding. We reserve the right to prior sale, subletting and subleasing.
- If a recipient of a property offered by BONREAL is already aware that it is available for sale or let, he must immediately notify BONREAL thereof. Otherwise, the offer by BONREAL shall be considered acknowledged.
- The commencement of business dealings either in writing or in person shall be deemed as acceptance of these General Terms and Conditions.

2. COMMISSION

- The customer shall be obliged to pay a commission in case the brokered business with a third party materializes as a result of the meritorious efforts of BONREAL as defined in the contract. BONREAL shall also be entitled to a commission when not the business defined in the contract but one equivalent to it as to its purpose materializes (e.g. house instead of condominium, lease instead of purchase).
- Likewise, the seller/landlord must also pay the agreed commission to BONREAL if the customer rejects an offer in conformance with the existing agency contract.
- If a transaction is reached with a third party and not with one of the potential buyers nominated by BONREAL because the first exercises a legal or contractual right of first refusal, right of repurchase or subrogation, or because the potential buyer informed the third party about this opportunity for acquisition made known to him by BONREAL, the agreed commission must be paid.
- In the event that a potential buyer informs a third party about the opportunity for the conclusion of a transaction and the latter concludes the transaction, the potential buyer shall be liable for the commission in case the third party refuses to pay such commission.
- Should a close family or economic relationship exist between BONREAL and the brokered third party, which could compromise the interests of the customer, the broker shall only be entitled to a commission if the customer immediately draws attention to this close relationship.
- The claim to the commission arises as soon as the brokered transaction becomes legally effective. An agreement must be reached as to the amount of the commission. The basis for assessment shall always be the actually brokered sale, rental, or lease price.
- The commission shall become payable upon acceptance of the purchase offer.
- The highest commission rates pursuant to the 1996 Austrian Real-Estate Agent Regulation shall apply to transactions not listed herein.

- If the agency contract is prematurely terminated by the customer without good reason, BONREAL is entitled to a reimbursement of costs equal to the statutory highest commission plus 20% VAT. 6. RESCISSION RIGHTS IN DISTANCE

§ 11 Austrian Distance and Off-Premises Contracts Act (1). The consumer may rescind a distance contract or a contract concluded off premises within 14 days without stating any reason. In service agreements, the deadline for rescission begins with the date of the conclusion of the contract.

Failure to provide information on the right of rescission

§ 12 Austrian Distance and Off-Premises Contracts Act (1). If the entrepreneur fails to comply with his information obligation pursuant to §4 para. 1(8), the rescission period provided in §11 shall be extended by twelve months.

(2) Should the entrepreneur provide information within twelve months as of the relevant date for the commencement of the period, the rescission period shall end 14 days after the date on which the consumer receives this information.

Exercise of the rescission right

§ 13 Austrian Distance and Off-Premises Contracts Act (1). The declaration of the rescission is not subject to a particular form. The consumer may use the sample rescission form for this purpose. Compliance with the rescission deadline is given if the statement of rescission is dispatched within the agreed period.

(2) The entrepreneur may also grant the consumer the opportunity to electronically fill out and send the sample form or an otherwise formulated rescission statement on the website of the entrepreneur. Should the consumer submit a rescission statement in this manner, the entrepreneur must immediately issue a confirmation of the receipt of the rescission statement on a durable medium.

Commencement of performance prior to the expiry of the rescission period

§ 10 Austrian Distance and Off-Premises Contracts Act. If the subject-matter of a distance or off-premises contract is a service that comprises the supply of water, gas, or electricity without a limited volume or a specific quantity, or the supply of district heating, and if the consumer wishes that the entrepreneur commences performance before expiry of the rescission period pursuant to § 11, the entrepreneur must prompt the consumer to issue an explicit request for such premature performance - in case of a contract concluded off premises, on a durable medium.

Obligations of consumer in case of rescission of a contract for services, energy and water supplies, or digital contents

§ 16 Austrian Distance and Off-Premises Contracts Act (1). Should the consumer pursuant to § 11 para. 1 rescind a contract for services or the energy and water supplies mentioned under §10 after issuing a request according to §10, and the entrepreneur has thereupon commenced performance, the consumer must pay the entrepreneur an amount proportionate – by comparison with the contractually agreed price – to the services provided by the entrepreneur until the date of rescission. If the total price is excessive, the pro-rata amount to be paid shall be calculated on the basis of the market value of the services provided.

(2) The obligation for a pro-rata payment pursuant to para. 1 does not apply if the entrepreneur failed to comply with his information obligation pursuant to § 4 para. 1(8) and (10).

Exceptions from the right of rescission

§ 18 Austrian Distance and Off-Premises Contracts Act (1). The consumer shall have no right of rescission for distance and off-premises contracts for services if - based on the explicit request of the consumer pursuant to §10 and confirmation of the consumer of his awareness of the loss of the rescission right in case of full contractual performance - the entrepreneur had commenced with the provision of the service and the service was subsequently fully rendered pursuant to §11.

In case of insufficient or no information on the rescission right, the consumer shall anyway have such a right without time limitation.
